

## WHY RELATIONSHIP MARKETING?

The LifePharm flagship product, "Laminine," has a story to tell.

This story cannot be told on a store shelf, infomercial or magazine ad.

Laminine is meant to come into the marketplace through the "Relationship Marketing" model. We specifically chose this method of distribution to create an unlimited opportunity to everyone and anyone.

## WHO IS LIFEPHARM?

Since 2011, LifePharm has been introducing our flagship product, Laminine®, to an eager consumer base. People interested in improving their overall health and well-being have been drawn to the benefits of Laminine and the business opportunity it offers.

LifePharm was founded on our unique “By You, For You” philosophy. What does this mean? Simply put, everything from our products, to our compensation plan, to our business tools and training has been developed by working closely with our Independent Business Owners to provide them with the support and resources they need to be successful.

Our Independent Business Owners are in business for themselves, but never by themselves. They have a robust infrastructure to support their business right at their fingertips.
